Dear CDAP Proposer,

No selection decision has been made, but I'm writing to tell you the results of the CDAP peer review. The peer review resulted in your proposal being given a grade that puts it into the selectable category. Peer review is not the only input to the selection decision; strategic relevance, programmatic balance, and budgets also factor into the decision. I will write again with the official word when the selection document has been signed. Thank you.

Max
