RE: Groundwater Withdrawal Identification Numbers

Dear Mr. Meyer:

Updates to our groundwater withdrawal database require changes to the former permit numbers under which NASA reports groundwater withdrawals. The identification numbers for NASA's systems are given below:

Main Base – formerly GW0039300 is now GW0039301
Island System – formerly ES0038900 (reported as GW0038900) is now GW0034600

Please ensure that these numbers are updated on the quarterly report forms and used in all correspondence pertaining to these two systems.

If you have any questions regarding these number changes, please contact me at the Tidewater Regional Office (757) 518-2197.

Sincerely,

A handwritten signature in black ink, appearing to read 'H. Ghittino'.
