

GSFC - Greenbelt Storm Water Pollution Prevention Plan (SWPPP) Training

Slide #	Slide Title	Description
1	Title Slide: GSFC – Greenbelt Environmental Awareness Training	View of pond in autumn with trees with leaves of changing color
2	Objectives	Meadow with sky and pond in the distance
3	GSFC’s Environmental Policy	N/A
4	GSFC’s Environmental Management System	Left: Graphic of the earth surrounded by a green border with leaves and the phrase “Think Green” Middle: Picture of a forest Right: Graphic of a light bulb with a dollar sign for the filaments
5	GSFC’s Environmental Priorities	Two adult geese and a baby goose swimming on a pond
6	Recycling	Left: Graphic of Earth enveloped by a three-arrow recycling logo Middle: Graphic with GSFC recycling logo, a skunk wearing a maid outfit, and the phrase “Keep Clean the Single Stream” along the bottom Right: Graphic of recyclable items hovering over a recycle bin with the words “Single Stream Recycling” to the right of the bin
7	What can you do? <i>(Waste Reduction and Recycling)</i> - subheading	Left: A co-worker passes office supplies to a fellow co-worker Right: A graphic of office supplies
8	What can you do? <i>(Energy Consumption)</i> - subheading	Energy pledge on a scroll: “In support of Energy Awareness, I pledge to curtail the unnecessary use of energy in Federal office space—especially when it is unoccupied. I commit to being a good steward of taxpayer dollars and the environment by implementing low-cost and no-cost efficiency measures, and improving operating procedures. As a building owner, operator, or tenant, I will turn off all unnecessary office equipment, personal accessories, lighting, and space condition

		equipment (such as space heaters and fans) whenever possible. I further commit to encouraging others to take this pledge and join us in reducing energy use everywhere possible.”
9	Air Quality	<p>Left: photo of mobile generator outside at GSFC</p> <p>Middle: photo of fuel storage tank outside of building 31</p> <p>Right: Photo of boiler in building 24</p>
10	What Can You Do? (<i>Air Quality</i>) - subheading	<p>Left: photo of cars at a stop light with lots of exhaust</p> <p>Middle: photo of refrigerator</p> <p>Right: photo of man on riding lawn mower</p>
11	Water Quality	<p>Left: Picture of a sink</p> <p>Right: Graphic of a sickly looking cartoon stormwater drain with sad eyes and outstretched tongue. Trash, oil, and other waste surround the stormwater drain. The stormwater drain has Chesapeake Bay Drainage stenciled on it. Runoff is shown going from the drain directly into the Chesapeake Bay. The phrase “Keep the Bay Healthy – Only Rain Down the Drain!” is written across the top.</p>
12	What Can You Do? (<i>Water Quality</i>) - subheading	<p>Far Left – photo of person pouring chemicals down a sink drain with the “no” symbol over it.</p> <p>Left, Middle – photo of person pouring cooking oil down a sink drain with the “no” symbol over it.</p> <p>Right, Middle - person pouring chemicals down a storm drain with the “no” symbol over it.</p> <p>Far Right – graphic of a stormwater drain with No Dumping, Flows to Bay with just water entering its grates.</p>
13	Regulated Waste Management	<p>Left Panel: Pictures showing bottles of chemicals, dirty filters, can of WD 40.</p> <p>Under the pictures text says: Hazardous waste - A wipe contaminated with hazardous material, Spent chemicals/solvents, Empty aerosol cans.</p>

		<p>Middle Panel: Pictures showing fluorescent bulbs, rechargeable batteries, mercury thermometers and thermostats. Under the pictures text says: Universal Waste - Fluorescent lamps, Rechargeable batteries, Mercury thermometers and thermostats.</p> <p>Right Panel: Pictures showing oil filters, motor oil bottles, and a large container labeled Oil. Under the picture text says: Other Regulated Waste - Antifreeze, Detergents/Cleaners, Used Oil, and Cooking Grease.</p> <p>Arrow extending over all three panels says "Different Types of Waste".</p>
14	Regulated Waste Management (Hazardous waste) - subheading	N/A
15	Regulated Waste Management (Hazardous Materials) - subheading	Yellow inventory sticker label for hazardous materials.
16	Regulated Waste Management (Universal waste) - subheading	Various types of compact fluorescent bulbs and batteries
17	Regulated Waste Management (Universal waste) - subheading	GSFC battery recycling station for NiCad and Lithium batteries
18	Spills and Releases to the Environment	<p>First panel: Picture of antifreeze or oil leaking from a car with matching text</p> <p>Second panel: picture of hydraulic fluid leaking from heavy equipment with matching text</p> <p>Third panel: picture of broken mercury thermometer device with matching text</p> <p>Fourth Panel: "no" symbol over picture of chemicals being poured down a drain. Text states: Chemicals, paint, cooking oil, or petroleum products down a drain or sink</p>
19	What Can You Do?	N/A
20	Environmental Planning	N/A
21	What else can you do to help protect GSFC's Environment?	Picture of an owl perched on a No Dumping sign
22	Summary	Picture of a pond surrounded by trees at sundown
23	Need More Information	Medical and Environmental Management Division Code 250 Logo
