

MIST HISTORICAL DATA FOR INCUMBENT CAPTURE PURPOSES

As of October 2019, there are approximately 50 subcontractors/team mates on the MIST contract ranging from significant subcontractors to consultants.

NOTE: The above information is historical and provided solely for the purpose of describing the scope of a phase-in/contract transition effort. It is in no way intended to imply that the composition of any new proposed contractor team for MIST II should resemble this structure, as that is to be determined by each proposing entity.
