

## SU-9.8 REQUIREMENTS

### 1 INTRODUCTION

These are the ECS Stories delivered in SU-9.8 that are identified as requirements in the ECS and SITC Jira projects.

### 2 STORIES

#### 2.1 ECS

ID	Title	Status
ECS-STORY-21	As a DAAC operator, I want to create a descriptor file for an ESDT that uses the ISO-SMAP metadata model and a SpatialSearchType of "NotSupported" using the Descriptor Maker.	Verified internal

#### 2.2 SITC

ID	Title	Status
ECS-STORY-22	As an operator I would like Data Access to dispatch queue priorities based on Earthdata Login user id	Verified external
ECS-STORY-23	As an operator, I would like to monitor Data Access job information by User id or E-mail Address	Verified external
