

Example status email for a late ROSES program

-----

Dear Colleague,

This is a brief note to update you on the status of the selection process for the LSSO ROSES program. The proposal review was completed on March 28th, 2007, and recommendations for selection will be submitted to the NASA Science Mission Directorate selecting official by May 20, 2007. We anticipate the release of the Lunar Advanced Science and Exploration Research (LASER) amendment by the end of May, and our goal is to notify all proposers of their LSSO selection status in time to respond to the LASER opportunity.

Sincerely,

Technical Representative  
Planetary Sciences Division,  
Science Mission Directorate  
NASA Headquarters
